Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptive moves. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, thut it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you pur-

organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figastands highest and is most largely used and gives most general satisfaction.

SOUTHERN SEAPORTS

Remarkable Activity In the Export of Grain From Southern Atlantic Cities.

IS OF PHENOMENAL DEVELOPMENT

the Lead, Though Newport News Port Royal, Charleston and Savanuah Close Behind-Direct Lines with Foreign Ports Established.

cently pointed out the remarkable activity in the foreign trade interests of the country, and especially the enormous ngagements made for export of grain and other products through South Atlantic and Gulf ports. Probably no branch of trade in this country has ever developed more rapidly and commanded wider attention than the foreign trade of the Southern ports, which is now making such phenomenal progress.

NORFOLK.

making such phenomenal progress.

NORFOLK.

The growth of this business is emphasized in a letter received by the Manufacturers' Record from the North American Transport Company, of Norfolk, giving a list of steamers which that company now has under charter to load general cargo for various European ports. This list includes boats ranging in size from 3,000 to 10,000 tons, and includes in the list of foreign ports for which these steamers will load, Liverpool, Hamburg, Rotterdam, Amsterdam, Leith, London, Glasgow, Bristol, etc. It is understood that the steamers under charter by this company alone have an aggregate carrying capacity of considerably over 200,000 tons of freight. In addition to these general cargo steamers, which carry not only grain, but lard, flour, cotton, etc., there are a large number of boats engaged to load full cargoes of grain. In a letter to the Manufacturers' Record, this company says:

"During the last six months we have handled enormous quantities of lard and packing-house products, which is comparatively a new trade to Norfolk."

NEWPORT NEWS.

At Newport News the same remarkable activity prevails, and Messrs, Fur.

At Newport News the same remarka-ble activity prevails, and Messrs. Fur-ness, Withy & Co., Limited, agents for the Chesapeake and Ohio Steamshi, Company, in a letter to the Manufactur-ers' Record, say:

the Chesapeake and Ohio Steamship Company, in a letter to the Manufacturers' Record, say;

"So far as this port is concerned, there will be an enormous amount of general cargo, consisting of flour, grain, tobacco, cotton and lumber, moved forward for the Unifed Kingdom and the continent between now and spring. We have six regular steamship lines running to Liverpool and London, and besides these there are a large number of outside steamers loading for Hamburg, Rotterdam, Amsterdam, Bristol, Leith, Glasgow and other ports. General cargo business is exceedingly large, and we expect a large grain business.

"As far as the port of Norfolk is concerned, there will be an enormous amount of cotton moved from that place during the coming winter, incidental to the change of terminal by the Southern Railway Company."

PORT ROYAL.

From Port Royal, S. C., we have a letter from William Londone.

PORT ROYAL.

From Port Royal, S. C., we have a letter from William Johnston & Co., Limited, managers of the Johnston Line of steamers, in which they say:
"Owing to the pressure we have had with cotton, we have taken very little general cargo business, as it has been very difficult to secure sufficient tonnage to carry off our cotton engagements. The steamer Jamaican loaded receitly at our wharves and went to set drawing twenty-five feet seven inches, and had it been necessary there would have no truoble whatever in loading her and sending her direct to sea drawing twenty-six feet. This will show you what can be done at this port. Our last steamer went to sea drawing twenty-five feet."

SAVANNAH.

SAVANNAH.

SAVANNAH.

A contract has just been made for the establishment of a direct line of steamers from Savannah to Europe, and that port will probably soon be in company with Newport News and Norfolk in the magnitude of its direct steamship business. At the Gulg ports, from Pensacola to Galveston, an immense volume of export business is being done.

mense volume of export business is being done.

It should be borne in mind, in studying these facts, that this foreign trade is to a large extent a comparatively new business for the South. While Southern ports have always made large shipments of cotton, the bulk of this new business consists of grain, lumber and Western products that are seeking a foreign market through Southern seaports. The influence of this most remarkable advancement upon the financial, commercial and industrial interests of the entire South is a subject of profound interest. It necessarily means a great growth of general business and manufacturing, and the building up of large and prosperous cities on the South large and prosperous cities on the Sor Atlantic and Gulf coast.

CHARLESTON.

CHARLESTON.

A dispatch from Charlecton, S. C., shows that that city, which has been displaying so much progress of late, joins others in the foreign trade advancement by securing regular steamship lines to Europe. The telegram says:

"Arrangements were yesterday perfected between the William Johnson & Co., Limited, Steamship Company, of Liverpool, and the South Carolina and Georgia Railway to establish a line of steamers between Charleston, Liverpool and other foreign ports. The first ship of the line will arrive in Charleston December 1st, and within a few days thereafter will be cleared for Liverpool with cotton and a general cargo.

"The South Carolina and Georgia railroad, which is one of the contracting parties in the enterprise, has formed a traffic arrangement securing practically a through route to St. Louis, Kansas City and the Mississippi Valley, and has completed a grain elevator here with a capacity for handling 50,000 bushels of wheat daily. The purpose is to clear at lesst two ships a month from this port for Liverpool, Manchester and other forleign cities."

Brewery Elects Officers

The following officers of he Consun-ers' Brewing Company have been elect-ed by the recently chosen Board of Di-rectors of that corporation: Henry Walke, president; G. M. Serpell, vice president; H. N. Page, secretary and treasurer. Mr. A. E. Krise has resigned as a director in the company.

WITHEY'S WHEELBARROW RIDE THE SEASON IS NOW ON

The Baggageman Won His Election

Bet and it Was Paid.

The fulfillment of an election wager between Mr. Walter Withy and Mr. George Hall, attracted the attention of large crowd on Main street yesterday.

The wheelbarrow in which Mr. Withy, the winner, made his triumphant progress from the Mansion House to the Atlantic and return, was a gayly decorated affair and respiendent in a yellow hat and sash, Mr. Withy sat in the midst of his gorgeous surroundings bearing aloft pictures of McKinley and Hobart, whose election made Mr. Hall occupy the perspiring post of pusher in the procession, whilst he proudly held the position of pushee.

Mr. Hall, who supplied the motive power for Mr. Withy's wheelbarrow, wore a "silver" hat, and a badge proclaiming for "Bryan in 1990."

A drum corps, headed by "Smalley," who acted as drum-major with a broom for a baton, led the way, and the howling mob of followers of the procession gathered albout it, completely blocked traffic for a time.

Mr. Editor: Some wise poet has said "Of all the ills the heart beset, Envy is strong. But facts are stronger yet."

But facts are stronger yet."

I envy no man, except for consistency and sincerity. I'm mortal, with some pretentions to humanism. Mr. McKin-ley and his party are pledged to civil service, and not to the partisan doctrine of "to the victors belong the spoils." I want work. This waiting for the grass to grow while the steed suffers is a theory more honored in the breach than the observance. I owe money and want to get out of debt. No man is independent who owes anybody. I was for "Protection and Prosperity" above all other considerations, and looked upon party discipline as the best means of success. MANY PRETTY AUTUMN MARRIAGES

Been Announced-The Daughters of the Confederacy Will Give an Entertainment - The First German of the Season.

These chilly mornings of late fall, bearing the first breath of winter, just enough to make fair checks blush beneath its kiss; the "chyrsanthemum girl" and the chrysanthemum-headed footballist; the first german, with its bevy of dainty debutantes, and the resumption of those delightful little informal at homes, to say nothing of the fall weddings, all go to make us realize that the season of social gayety may now be said on be upon us.

MANY FALL WEDDINGS.

MANY FALL WEDDINGS. MANY FALL WEDDINGS.

During the past week many of these aforementioned affairs have taken place. There have been marriages—pretty fall affairs, with a wealth of that omni-present autumn flower, chrysanthemums, white and gold—and there have been announcements of marriages and rumors of forthcoming nuptial events galore. Cupid has indeed had a busy season.

During the past week many of these aforementioned affairs have taken place. There have been marriages—pretty fall affairs, with a wealth of that omin-present autumn flower, chrysan-themums, white and gold—and there have been announcements of marriages and rumors of forthcoming nuptial events galore. Cupid has indeed had a busy season.

The marriage of Miss Lucy Baylor, the charming daughter of Mrs. Alfred P. Thom, which has been fully described in The Virginian, may be said to have been the event of the week. The ceremony was performed at old St. Paul's by Rev. Afterward a reception was tendered them at Mr. Thom's handsome Freemason street residence. They are now absent on their wedding tour.

Mr. Ernest J. Griffith, who was married last Wednesday to Miss Leonora Virginia Winslow at her home, in Perquiamas county, N. C., as previously noted, will reach the city this afternoon with his bride. They will reside on Bute street.

DAUGHTERS OF THE CONFEDE-RACY.

A charming entertainment will be given by the Piekett-Buchanan Chapter, Daughters of the Confederacy, for the benefit of Confederate widows, Thursday evening, November 12th, from 5 to 11 o'clock, in the hall of the camp, Main street. Delicious dainties will be served by fair hands at reasonable prices. The appeal to every Southern heart should fill the hall. The Camp, with wives and sweethearts, are invited, and the hearty co-operation of the entire community is carnestly requested by the Daughters of the Confederacy. Delightful music will be rendered and an enjoyable evening is promised.

The annual election of officers of the Daughters of the Confederacy took place Tuesday, November 3d. The following were elected: Mrs. James Y. Leigh, president; Mrs. Washington Taylor, first vice-president; Mrs. Page Waller, second, vice-president; Mrs. Thom Henderson, treasurer; Mrs. Walter P. Extensive Improvements.

Messrs, Duval & Co., of the Norfolk Tron Works, have completed an extensive addition to their large plant on Waster street having converted the large shed which ran along the side of their works to a depth of 45 feet, into a bricked walled and slated roofed room for the accommodation of the new machinery which they have just acquired. A mong the latter is a 28-inch square planer weighing 28,000 pounds and said said to be the largest in the city.

They have also purchased a steam hammer which will be here next week, and is an improved tool, weighing 16,000 pounds, having a 24-inch stroke and capable of striking an 8,000-pound blow.

The entire works are now lighted by a new electric plant, which the company has just put in, furnishing their own power from the large engine for the 50 16-candle power lights with which the establishment is equipped.

A Tale of Woe.

Charles Crawford, a paralytic, who can not walk without assistance, and who claims Campbell county, this State, as his home, is a prisoner in the city jail, and has been incarcerated there nearly two months on the charge of being a nuisance. He would be released, but he has no means of support. The police have no way of sending him back to Campbell, and as yet Chief Dornin has been unable to secure his admittance into the city almshouse, he being a non-resident. Crawford is a most pitiable object to look upon, and begs with tears in his eyes to be sent to the almshouse, or somewhere other than he now is.
